Skilled in leveraging analytical thinking and data expertise to uncover actionable insights and drive business success.

Experience

Total eBiz Solutions

Developer

March 2024 - Present (1 year 1 month)

Kuala Lumpur, Federal Territory of Kuala Lumpur, Malaysia

- Developed custom business applications using Microsoft Power Platform, streamlining workflows and increasing process efficiency.
- Integrated Dataverse with existing business systems to enhance data management and ensure seamless operations.
- Automated repetitive tasks with Power Automate, leading to a 30% improvement in task completion times.
- Enhanced user experience with tailored Power Apps solutions, increasing user engagement and satisfaction.

CTOS Basis Sdn Bhd

Financial Analyst

August 2023 - January 2024 (6 months)

Federal Territory of Kuala Lumpur, Malaysia

- I focus on meticulous data entry and reconciliation, prioritizing data integrity.
- Seeking to elevate my contributions, I integrated advanced analytics, particularly in Excel.
- I shifted towards a focused analysis of industry trends, exploring the impact of GDP, labour forces, and the Index of Services on our data. Engaging cross-functional teams, I discussed the implications of these economic indicators.

-This analytical approach enhanced our understanding of industry trends, refining data precision and aligning insights with broader economic considerations. It highlights my capacity to go beyond routine tasks, bringing an analytically driven perspective to operational efficacy.

IIUM Student Union

Central Operation Department

September 2022 - June 2023 (10 months)

Kuantan, Pahang, Malaysia

-Connecting students and authorities on problems, complaints, and suggestions
